**NEW! Realistic Drawing 9 Yrs+ and now a follow-on Drawing Realistic class!**

Many kids become frustrated and lose interest in drawing around 9-10 years of age as they move from imaginary and cartoon-style drawing to wanting to draw more realistically. They don't have the skills, get disheartened and give up. Our goal is keep kids drawing past this age and we are committed to running our Realistic Drawing sessions each school holiday. Over **three mornings** (Mon, Tues, Wed), we'll show your child how to make the move from cartoon to realistic drawing. We'll cover how to really 'see' an object, how to break it down into simple shapes and contour lines, how to create form through understanding shading and value, and how to position and draw objects in relation to one another.
